TEACHING

- Winter 2024/2025 Lecturer/instructor
Topics in 3-manifold topology (Module V5D2 *Selected Topics in Topology*, Master in Mathematics), University of Bonn.
I designed and taught the course, which met for 90 minutes per week for thirteen weeks with about 25-30 students (mostly Master students). I also designed bi-weekly exercise sheets and examined 22 students in an oral exam. The course was evaluated with grade 1 by two thirds and with grade 2 by one third out of 15 people who took part in the [course evaluation](#).
- Winter 2018/2019 **Linear Algebra review course** (Bachelor in Computer Science and Engineering), Ulm University. Approximately 15 hours of classroom teaching.
